How to maintain a ribbon

It is always good to keep a ribbon wrapped to a cylinder, recommended to use Ribbon Winder or Stick & Ribbon Holder.

When ironing a ribbon, press with a damp cloth at 140 to 160 degrees C (284 to 320 degrees F) if needed.

How to maintain tip of a stick

This is a tiny but very important part for extremely high spinning at the tip of a stick.

Put 1 or 2 drops of oil around the moving parts of the axle.

Please maintain after lessons or before competitions.
